2. Introduction:

Congratulations on your purchase of your Electro-Therapy-Device (ETD). The following guide provides an introduction to electrotherapy and recommendations for the use of your device. Also provided is the official ETD frequency list, revised for your device, an introduction on parasites and the description of a liver cleanse, that we recommend strongly. We wish you every success with your therapeutic treatments and the positive experience of using your new device!

CAUTION: This machine is an electro-therapy device with a very high frequency output potential. Read this brochure carefully and use your electro-therapy devices exactly as directed!

3. Technical Information:

Technical information regarding the programming and general operation of your ETD device is provided in a separate “Quickstart” manual, along with a ‘Frequently Asked Questions’ guide, and an International Contact page

4. Basics:

What is electrotherapy treatment with the ETD for?

- Use electrotherapy to fight certain viruses, bacteria, parasites, etc. The electrotherapy works in a similar way as Homeopathy: using natural principles to heal the body. Everything around us already has an electrical charge and thus a certain electrical frequency - we are always and everywhere exposed to it. If you have a specific virus, it lives in a given frequency field. Let us assume for simplicity it lived only at one single electrical frequency. When you feed the same frequency generated by an ETD to your body (with very particular waves), the virus gets over-stimulated and dies.
- Use electrotherapy to restore vitality and health: The programs are producing a harmonic resonance in the body. Each symptom brings electric dissonance in the organism. With the more general programs such as back pain, detoxification programs for lung, liver, etc., the dissonance in the body will be transformed into harmonic resonance. Such programs are particularly useful for meridian treatments connected with 4 strap-combinations.

5. Treatment Modes

5.1. MANUAL

<RUN> Mode: In RUN-mode, you are working on a single frequency and you can control the treatment time manually (e.g. RUN a single frequency for one hour, or manually run the frequency for 7 minutes on, and press RUN again to pause for a 10-minute break etc.). You do treatments with RUN-mode when you want to work specifically with only one frequency and when you know the actual frequency you want to work with. You can use a single frequency for many hours and another for five minutes

5.2. AUTOMATIC

<SWEEP> Mode: In SWEEP-mode, you treat with whole frequency-sets within a preset time (10 frequencies, with 10 minutes each = 1 hour 40 minutes). The frequencies that you use are sourced from the ETD Frequency List (provided), and are frequencies that have been used successfully to treat the respective diseases. Many diseases can not be attributed to just one pathogen and/or they always occur with so-called secondary symptoms. Consequently, the frequencies included in these sets, represent the best frequency-bandwidth for the treatment of each respective disease.

5.3. FACTORY PRESETS

<SWEEP> Mode: Without any alterations to the internal programs, the user may run the Factory default settings which run from lowest frequencies up to 1 million Hz in a period of 1 hour and 40 minutes. This allows a general sweep for unknown disease conditions, or permits a non technical person to use the device by simply turning on the machine and pressing one button <SWEEP> to commence the therapy. Professional models will have the Factory Presets listed in the Quickstart manual after January 2013

5.4. HOW OFTEN DO YOU CHANGE THE PROGRAMS?

Do not change the programs too often, but focus on one disease that you want to treat with one Frequency Set. Conduct regular treatments (5 days with 2 days rest), until your symptoms have disappeared. Sometimes it is recommended to use 2 different frequency sets for one particular illness; in this case switch between the 2 sets in weekly intervals. If you do not feel any change within 5 days, then you probably are working with a wrong frequency set and you should try something different.

The programmed frequency set of 10 frequencies is stored on a built-in memory card and remains the default program even if you turn off and unplug the device completely. If you want to delete the programmed set, please follow the instructions to reset the device '

6. Recommendations for Treatments

6.1. General recommendations:

If you are new to this form of therapy or if you have not used an ETD for a long time or ever before, we recommend starting the treatment slowly. In the <SWEEP> mode, run a maximum of one cycle a day, possibly divided in two sessions (first 5 frequencies, then a few hours later, the other 5).

After a few days with this rather conservative treatment, you can increase the treatment time to 2 <SWEEP> cycles per day. If you regularly work with the device, then you can start treating overnight with attached foot-straps. This way you accomplish 3 to 4 cycles during sleep and will experience very immediate healing successes. Generally speaking, sleep is not disturbed; many users even describe quite the contrary, they feel more clearer and more alert after nights on electrotherapy treatments.

The ETD Frequency book lists thousands of diseases and ailments, with accompanying 10 frequencies . Sometimes, the choice is simple, for example if you have a cold then simply program your device with the frequency set for 'common cold' and set your machine on <SWEEP>. More complicated disease conditions may require an individualized program.

6.2. General disease treatments:

General treatments would be considered Parasite Cleanses, Cold or Flu treatments, Candida or Skin diseases, bacteria, viral infections and Detox, to name a few. These conditions can be treated over a period of 21 – 30 days

For General Parasite Treatment we recommend the:

Parasites general comprehensive: 0.16, 0.30, 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 356.72, 451.17

Program the ETD with each frequency and use for 10 minutes per frequency. Many people use the ETD on the feet at night and for the first

21 days of the cleanse 1-6 hours per day or night, while resting or sleeping. Place wristbands on both feet with the Silver side touching the soles. Program all the above frequencies and allow the frequencies to cycle overnight in a loop every 100 minutes.

If you are not aware of the condition being treated, simply use the default frequency set built into the machine, and use the <SWEEP> Key to run the frequencies according to the instructions above.

6.3. Serious Disease Treatments:

More serious diseases often require a longer treatment period, and often permit a course of frequencies that may change every few weeks. Our devices have been used successfully to treat serious diseases for thousands of people. Time and again, the results have shown that the extended treatment sessions have produced the best healing responses. Extended sessions are more convenient at night, so as not to interrupt daytime activities or work schedules. An overnight session with the straps attached to the feet will permit a deeper healing which will reach and penetrate the organs of the body. For example the intestines are an organ that could previously not be reached by early frequency devices; now with the ETD, one can eliminate parasites and pathogens that inhabit the intestine and other organs such as the liver, kidneys, gall and stomach. However it does take time, and you are required to use frequencies that resonate closely with the pathogen or parasite involved. We recommend the <SWEEP> mode for this purpose as it scrolls through the 10 frequencies every 10 minutes in a loop cycle. Each frequency resonates with the healing program in order to treat the particular disease condition.

Because the ETD works using natural frequencies, three months may be a plausible time period for a remission of more serious disease conditions. Natural medicine works in this manner, on a more subtle level and over an extended period of time. Again, best results are achieved with the extended overnight treatment sessions.

6.4. How to choose the frequencies

If you have symptoms that can not be identified so easily, then there are several methods to choose your treatment program:

- To select the correct frequency or frequency set, you can work with kinesiology (muscle testing, based on the principle that the body already knows what it needs; you can work with a kinesiology practitioner or learn this technology for your own home-use). Some clients work with the pendulum, which is also easy to learn.
- There are electrotherapeutic devices that are able to write very precise diagnostic profiles. Those are often used by homeopaths (Vega machine) or in natural healing practices (Bioresonance-Devices). These are based on the same principle, only that they start from a completely healthy body and then measure and diagnose the dissonances that are present in the unhealthy body. So you could look up such a clinic, get a diagnostic profile and then treat yourself with your own device.
- Most disease frequencies are listed in the book, however Medical definitions can change over time or be compiled into a new definition. If you can't find a frequency, you may have looked in the wrong section of the book: For example: Skin Cancer would be listed as “**Cancer, Skin**”. Or Tapeworms would be listed as “**Parasites, Tapeworms**” for example. If in doubt email your machine supplier for the correct frequency set.
- If you use your ETD regularly you will observe another important side-effect: you get to know your body much better, you will become more sensitive to the physical processes of this therapy. You will be able to assess your illnesses and therefore choose your own treatments more accurately. You will be able to identify the frequencies that are bringing you into greater health and bring in new sets of frequencies when required.

7. Cautionary note on Treatments

You cannot “do anything wrong” with these treatments. If (for example) you use the device to eliminate a particular parasite, and you do not have this parasite, then the electrical frequency may simply fade without effect on the body. There has been research that shows that pathogens live in specific frequency ranges. If you cross frequency ranges with other pathogens or parasites of a similar resonance it is likely that you can

eliminate that species. We recommend changing frequency sets if you do not feel change of disease symptoms after prolonged treatment (5 days). The ETD Frequency book will provide other frequency options to assist with further treatments.

7.1. What is Herxheimer reaction?

When you begin the electrotherapy- treatments, many parasites and pathogens are killed. This can overwhelm your immune system and lead to nausea, fatigue and dizziness. This is called the 'Herxheimer effect', or 'Parasite-Die-Off-Syndrome', an immune system response to toxins in the blood and tissues. This brief overloading of the liver and other eliminating organs worsen your symptoms at first. This can be a for a few hours, but can also last up to 2-3 days before you begin to feel much better. It is important to know that the worsening of symptoms does not mean the treatment has failed; in fact, it is exactly the opposite, namely the evidence for a very strong and effective detoxification.

7.2. What to do when a Herxheimer reaction occurs?

The most important thing is to accept this physical reaction, as a confirming result of the treatment. If it is very severe, then reduce the time of treatment, drink lots of water (at least 4 L per day) and rest (no exercise!), eat lightly to not burden your digestive system additionally, add freshly squeezed lemon juice to your drinking water and make sure that your digestion system is working properly (using Epsom salt or natural laxatives may be recommended). Take a rest from the Electro Therapy sessions for a few days until you recover.

7.3. ETD warnings

- It has been suggested that Pregnant Women should not use electro-frequency-devices.
- It is advised not to use ETD if you wear a pacemaker, although there have not been any reported contraindications to date
- It has been suggested that frequency output generated in the bandwidth of Lactobacillus Acidophilus: (346.05, 347.00, 348.00, 349.00, 350.00, 351.65, 352.00, 353.00, 354.00, 355.00) can trigger Candidiasis (Candida) in some people. If your treatment program ranges within the bandwidth of this natural stomach and intestinal flora, then take daily "Pro Biotic" supplements, available from health food stores. Lactobacillus acidophilus is also found in natural yoghurt, Kefir and Kombucha.

7.4. Important note:

In rare cases there might be a tingling sensation on the skin due to the use of our ETD. This usually happens only when using the wrist-straps on sensitive skin such as abdomen, wrists, or other soft skin areas. To avoid this, please use the wrist-straps only in the palms of your hands or on the soles of your feet.

Using the straps in sensitive skin area despite the above described tingling sensation for a long time, can cause a local rash. If you really need to treat at these locations, please move the straps regularly every few minutes, in case of tingly sensation. The best places to conduct treatments over a longer time period are the palms of your hands and/or soles of your feet.

7.5. How to wear Straps

The best place to carry out several hours of treatment (such as overnight) is the soles of the feet in a way that the stainless steel button touches the bottom of your feet. The soles of the feet have very thick skin and are able to tolerate long periods of electrotherapy.

We recommend using the straps preferably at the soles of the feet in a way that the blue conductive coating touches the undersides of the feet. The stainless steel button must always touch the soles.

Relocate Straps to the Palms of the hands

Silver Button faces palms of the hands

Or Use Straps on the soles of your feet

7.6. Suggestions for reliable machine operation

We would advise that the machine be placed on a firm surface, like a glass top table, wooden bedside cabinet, or on the floor if you have marble or similar surfaces.

Do not place the machine on top of beds, or inside the bed, on a carpeted floor, or on a pillow or clothing.

Do not be alarmed if the green light begins to flash on the programs 00.01 – 00.04 kHz

When using the “Super Low Range” frequencies of 00.01 – 00.04 the Green light will flash indicating that the machine is running a low frequency set. The very low frequency sets 00.01 – 00.04 are the most efficective detox range, and for this reason, a flashing light indicator was fitted, so that doctors and health professionals could monitor their clients.

The low range detox sets can cause a small herxheimer reaction in some clients. This detox range permits speedy elimination of pathogens and bacteria in the body which can cause a small reaction in some people, such as a brief cold symptom, which would rarely last more than a few hours.

This machine has been Quality Control Passed for years of continual successful operation.

7.7. Technical Data.

Square Wave Harmonics

Laboratory tested harmonic waveform periodic on 100% frequencies

Fig.2

7.7.1 DAC

Digital frequencies from Direct Digital Synthesis and Digital Signal Processing are converted to analog before they are transmitted from the ETD. These Digital-to-Analog Converters are also known as DAC. The ETD signal goes through the DAC then it passes through a Low-Pass or Bandpass Filter to finish the analog conversion. The Frequency produced is a very accurate analog frequency with all the overtones and undertones of that analog frequency.

The analog frequency produced by a digital chip can be swept up or down with more accuracy than most frequency generators. The most important thing to remember is the frequency will be converted to analog before it is output from the ETD. Digitally produced frequencies when converted to analog are the most accurate. These analog frequencies when converted to a square wave produce the square wave harmonics as seen in (Fig. 2) Radio Frequencies are produced using Carrier Wave Impedance on a single bandwidth

7.7.2 WAVE TYPE

Wave type is Square Wave, the most reliable wave form tested for eliminating pathogens and disease treatments. Duty Cycle is fixed at 50% on the standard model, and 10% - 90% square wave duty cycle on the Professional model under Pulse mode option. (Fig. 1)

7.7.3 VOLTAGE and AMPERAGE

Voltage Output measured by an Oscilloscope will accurately measure the top of the Square wave (7.5v) added to the bottom of the square wave (7.5v) to produce the correct output reading of 15v

Output measured by a Multimeter will accurately measure the top of the Square wave (7.5v) only. The reading is instantaneous and will not account for the total true measurement ($7.5 + 7.5 = 15v$).

So please note, if you are measuring the output on your ETD with a multimeter, do realize that the measurement shown will only reflect 50% of the total output of your ETD device. This anomaly has to do with the inability of most multimeters to accurately measure voltages from a wave form. If in doubt always test ETD output with a professional Oscilloscope. Amperage output from DC source is 4500ma.

7.7.3 HARMONIC FREQUENCIES

Frequencies produce harmonics which progress from high to low and again to high within the wave output sequences (Fig. 2). The harmonics of a frequency consist of overtones and undertones of that frequency. In a device like the ETD frequency generator, the harmonics go on infinitely. Because with harmonics, not only will you get the healing effects of the frequency itself, you will also make it difficult for the pathogen to elude the given frequency.

8. Introduction to ETD Frequency List

The revised edition of the ETD frequency list (The Electro Therapy Device Frequency List Edition 2013) provides the users of ETD a clear and comprehensive manual to use the Electronic Therapy device against various diseases and ailments.

This book has been adapted from the original CAFL-Frequency-List for use with your device and all programmable frequencies are mentioned in kilohertz (kHz).

8.1. The Electro Treatment Device List, (© ETD Association 2013)

This book has been compiled by medical researchers, who use machines, such as the Royal Rife machine or similar Digital Electro-Therapy Devices. The particular frequencies reflect successful medical treatments of patients at various RIFE frequency settings. The medical practitioners have made notes of the range of frequencies for a particular disease when the treatment was successful. These were then transcribed in this booklet.

Frequencies in this book reflect successful treatments using digital Electro-Therapy-Devices. They may not always be a cure for a disease, but the frequencies will assist in the relief of many diseases and illnesses. Many parasite specific illnesses can be treated and cured through the specific frequency programs outlined in the ETD Frequency lists.

All frequencies in this book are in Kilohertz (KHz). 1 KHz corresponds to 1000 Hz (i.e. 30000 Hz = 30.00 KHz). The range of the Digital Device is from 000.01 KHz up to 999.99 KHz (approx. 1 MHz (Megahertz)). This frequency compilation has been brought into a form that allows you to program the frequency sets directly into your Digital Frequency Device.

Enter the frequency sets from this booklet on the navigation console directly into your machine to achieve an improvement in your symptoms, the cure of various diseases or physical ailments.

8.2. Disclaimer

The E.T.D. Association holds no guarantees, that the Royal Rife frequencies within this book will cure any specific diseases. The listing is a guide compiled by Electro-Therapy medical staff, who have had successful results at these particular frequencies.

This Digital Device is licensed to use all ETD Royal Rife Frequency Sets

Einführung:

Herzlichen Glückwunsch zum Kauf Ihres Elektrotherapie-Gerätes (ETG). In dem folgenden Handbuch finden Sie eine Einführung in die Elektrotherapie, Empfehlungen zur Benutzung Ihres Geräts, die offizielle, für Ihr Gerät überarbeitete, ETD-Frequenzliste, sowie eine Einführung über Parasiten und die Kurzbeschreibung einer Leberreinigung, die wir Ihnen dringendst empfehlen. Wir wünschen Ihnen viel Erfolg mit Ihren Therapien und viel Spass beim experimentieren!

Achtung: Ihr Elektrotherapiegerät hat eine sehr hohen Ausgangsleistung. Lesen Sie diese Broschüre sorgfältig und nutzen Sie Ihr Elektro-Therapie-Geräte genau nach Anweisung!

3. Technische Informationen:

Alle technischen Informationen, die mit dem generellen Betrieb oder der Programmierung Ihres Gerätes zu tun haben, entnehmen Sie bitte dem Schnellstartheft. Dort finden Sie auch Antworten zu regelmässig gestellten Fragen und alle unsere internationalen Kontakte.

4. Grundsätzliches

Wozu dient die Elektrotherapiebehandlung mit Ihrem ETD:

- Zur Bekämpfung bestimmter Viren, Bakterien, Parasiten, etc. Die Elektrotherapie arbeitet in ähnlicher Weise wie die Homöopathie: man bekämpft gleiches mit gleichem. Alles um uns herum hat eine elektrische Ladung und damit eine bestimmte elektrische Frequenz - dem sind wir immer und überall ausgesetzt. Wenn Sie z.B. einen bestimmten Virus haben, lebt der in einem bestimmten Frequenzfeld; lassen Sie uns der Einfachheit annehmen er strahle nur eine einzige elektrische Frequenz aus. Wenn man nun mit einem Elektrotherapiegerät dem Körper dieselbe Frequenz zuführt (in einer sehr spezifischen Wellenform), wird der Virus überstimuliert und stirbt.
- Zur Herstellung von Vitalität und Gesundheit: Viele Programme dienen der Herstellung einer Harmonie im Körper. Jedes Krankheitssymptom bringt elektrische Dissonanzen in den Organismus. Mit allgemeinen Programmen wie z.B.

Rückenschmerzen, Entgiftungsprogramme für Lunge, Leber, etc., wird die Dissonanz im Körper zu harmonischer Resonanz hin verändert. Für solche Programme eignen sich besonders Meridianbehandlungen, mit 4 Hand-/Fussbändern angeschlossen.

5. Behandlungsarten

5.1 Manuell:

<RUN>-Modus: Im RUN-Modus behandeln Sie einzelne Frequenzen und können die Behandlungszeit manuell steuern (z.B. lassen Sie eine einzelne Frequenz für eine Stunde laufen oder pressen Sie den RUN Knopf und lassen die Frequenz manuell für 7 Minuten laufen, pressen den RUN Knopf erneut um das Gerät z.B. für 10 Minuten zu pausieren, etc.). Im RUN-Modus behandeln Sie wenn Sie ganz gezielt behandeln wollen und die effektive Frequenz genau kennen. Sie können mit einer einzelnen Frequenz stundenlang behandeln und mit einer anderen für 5 Minuten.

5.2. Automatisch:

<SWEEP>-Modus: Im SWEEP-Modus behandeln Sie mit ganzen Frequenzsets (10 Frequenzen mit jeweils 10 Minuten = 1 Stunde 40 Minuten). Die Frequenzen die Sie hier verwenden entnehmen Sie bitte der mitgelieferten ETG Frequenzliste. Diese sind Sammlungen von erfolgreich verwendete Frequenzen, gegen die jeweiligen Erkrankungen. Viele Erkrankungen kann man nicht auf einen Erreger zurückführen und/oder sie treten immer mit sogenannten Sekundärsymptomen auf. Deshalb enthalten diese Frequenzsets die beste Bandbreite zur Behandlung der genannten Krankheiten.

5.3. Betriebseinstellungen

<SWEEP> Modus: Ohne Ihr Gerät individuell zu programmieren, können Sie im SWEEP Modus mit den Betriebseinstellungen behandeln. Diese Einstellungen decken in der Behandlungszeit von 1 Stunde 40 Minuten, die gesamte Bandbreite von einer ganz niedrigen bis zu der höchsten Frequenz Ihres Geräts ab. Dies ermöglicht eine sehr generelle Breitbandbehandlung gegen unbekannte Erkrankungen und ermöglicht einem technisch nicht so versierten Benutzer mit dem Gerät zu behandeln, durch einfaches Einschalten und drücken des <SWEEP> Knopfes.

5.4 Wie oft sollte man das Programm wechseln?

Wechseln Sie die Programme nicht zu oft, sondern konzentrieren Sie sich auf eine Erkrankung, die Sie mit einem Frequenzset behandeln wollen. Behandeln Sie regelmässig (5 Tage mit 2 Tagen Pause), bis Ihre Symptome verschwunden sind. Manchmal bietet es sich an mit 2 verschiedenen Frequenzsets zu arbeiten, dann wechseln Sie diese bitte im Wochenrhythmus. Sollten Sie innerhalb von 5 Tagen keinerlei Veränderungen spüren, dann haben Sie vermutlich das falsche Frequenzset und sollten etwas Neues ausprobieren.

Das programmierte Frequenzset von 10 Frequenzen bleibt erhalten, auch wenn Sie das Gerät vollkommen abschalten und ausstecken. Das Programm ist auf einem eingebauten Memorychip gespeichert. Wenn Sie das Frequenzset löschen wollen folgen Sie bitte den Anweisungen zum ‚Zurücksetzen des Gerätes‘

6. Behandlungsempfehlungen

6.1 Generelle Empfehlungen:

Wenn Sie neu sind zu dieser Therapieform oder wenn Sie Ihr ETG über einen längeren Zeitpunkt nicht verwendet haben, dann empfehlen wir mit den Behandlungen langsam anzufangen. Behandeln Sie im <SWEEP>-Modus zunächst nur einen Zyklus pro Tag, möglicherweise in 2 aufgeteilte Sitzungen (5 Frequenzen mit je 10 Minuten, ein paar Stunden Pause und dann die anderen 5 Frequenzen).

Nach ein paar Tagen mit dieser eher vorsichtigen Behandlung, können Sie die Behandlungszeiten steigern zu 2 <SWEEP>-Zyklen pro Tag. Wenn Sie regelmässig mit dem Gerät arbeiten, dann können Sie beginnen auch über Nacht mit angelegten Fussbändern zu behandeln. So schaffen Sie 3 bis 4 Zyklen quasi im Schlaf und werden sehr schnelle Behandlungserfolge spüren. Der Schlaf wird dabei in der Regel nicht gestört, ganz im Gegenteil, viele Nutzer beschreiben, dass sie sich viel klarer und wacher fühlen nach Nächten mit Elektrotherapiebehandlung.

Sie finden alle Behandlungssets in der Frequenzliste, die Tausende von Symptomen und Krankheiten auflistet und diese mit jeweils die 10 passende Frequenzen versieht. Manchmal ist die Auswahl einfach, z.B. wenn man eine Erkältung hat dann programmiert man einfach das

Programm für 'allgemeine Erkältung' (common cold) und lässt das Gerät im <SWEEP-Modus laufen. Schwerwiegendere Krankheitssymptome erfordern allerdings oft spezifischere 'Behandlungsformen'.

6.2. Die Behandlung allgemeiner Erkrankungen:

Mit allgemeinen Behandlungen behandelt man z.B. Erkältungen oder Grippe, Candida oder Hautkrankheiten, Bakterien oder verschiedene virale Infektionen, um nur einige zu nennen. Allgemeine Behandlungen beziehen sich auch z.B. auf die Reinigung von Parasiten. Solche Erkrankungen können über einen Zeitraum von 21 bis 30 Tagen behandelt werden.

Für die allgemeine Reinigung von Parasiten empfehlen wir die Behandlung für:

Parasiten allgemein: 0,16, 0,30, 0,68, 0,90, 2,50, 5,50, 13,93, 93,50, 356,72, 451,17

Programmieren Sie Ihr ETG mit allen Frequenz aus einem Set und behandeln Sie im <SWEEP>-Modus automatisch mit 10 Minuten pro Frequenz. Viele Menschen nutzen das ETG für die ersten 21 Tage einer Reinigung für 1-6 Stunden an den Füßen täglich, entweder über Nacht, oder während anderer Ruhezeiten. Befestigen Sie Bänder an beiden Fusssohlen so, dass der Edelstahlknopf die Fußsohlen berührt.

Programmieren Sie alle oben genannten Frequenzen und behandeln Sie über Nacht in einer endlosen Schleife, die sich alle 100 Minuten wiederholt.

Wenn Sie nicht wissen was Sie behandeln sollen, verwenden Sie einfach die Betriebseinstellungen, die in Ihrem ETG vorprogrammiert sind und verwenden Sie Ihr Gerät im <SWEEP>-Modus, gemäss den obigen Anweisungen.

6.3. Die Behandlung von schwerwiegenden Erkrankungen:

Schwerwiegendere Krankheiten erfordern oft längere Behandlungszeiträume und bedürfen in der Regel einem gezielteren Behandlungsplan, der z.B. den Wechsel von Frequenzsets alle paar Wochen mit einschliessen könnte, etc. Unsere Geräte werden weltweit, bei Tausenden von Menschen erfolgreich gegen schwere Erkrankungen eingesetzt. Immer wieder haben die Ergebnisse gezeigt, dass lange Behandlungszeiten die besten Heilungsergebnisse produziert haben.

Lange Sitzungen sind einfacher in der Nacht durchzuführen, damit Tagesaktivitäten oder Arbeitszeiten nicht unterbrochen werden

müssen. Eine Behandlung über Nacht mit den Bändern an den Füßen befestigt, ermöglicht eine wesentlich grössere Heilung, weil sie in der Lage ist tiefer in den Körper einzudringen und alle Organe zu erreichen. Zum Beispiel ist der Darm ein Organ, das durch frühere Elektrotherapiegeräte nicht erreicht werden konnte. Mit unseren ETG-en kann man Parasiten und Krankheitserreger sowohl im Darm als auch in anderen Organen wie der Leber, Galle, Magen beseitigen. Allerdings erfordert das ausgedehnte Behandlungszyklen mit Frequenzen, die möglichst eng mit den Frequenzen der Erreger oder Parasiten resonanzieren. Für diesen Zweck empfehlen wir den <SWEEP> Modus, der sich in einer Endlosschleife im 10-Minutenrhythmus automatisch durch die 10 Frequenzen arbeitet. Jede Frequenz resonanziert dabei mit dem Heilungsprogramm, um den spezifischen Krankheitszustand zu behandeln.

Da das ETG mit natürlichen Frequenzen arbeitet, erscheinen drei Monate Behandlungszeit ein plausibler Zeitraum zu sein, um das langsame Verschwinden der Symptome bei ernsteren Erkrankungen zu erreichen. Natürlicher Medizin arbeitet in der Regel auf verschiedenen, oft mehr subtileren Ebenen und die positiven Ergebnisse werden erst über einen längeren Zeitraum sichtbar. Aber noch einmal, Sie erhalten die besten Ergebnisse mit Behandlungszeiten vorzugsweise zu Ruhezeiten oder über ganze Nächte.

6.4. Die Auswahl der Frequenzen

Falls Symptome haben, die sich nicht so ohne weiteres zuordnen lassen, gibt es verschiedene Methoden zur Auswahl Ihrer Behandlungssets:

- Zur Auswahl der richtigen Frequenzen oder Frequenz-Sets kann man kinesiologisch arbeiten (Muskeltests, die auf dem Prinzip beruhen, dass der Körper selbst schon weiss was ihm gut tut; man kann mit einem Kinesiologen arbeiten oder sich diese Technik für den Hausgebrauch selbst aneignen). Manche Menschen arbeiten mit dem Pendel, was ebenfalls leicht zu lernen ist.
- Es gibt Elektrotherapiegeräte, die auch sehr präzise Diagnoseprofile erstellen können. Man findet sie bei Homöopathen (Vega Maschine) oder in Naturheilpraxen (Bioresonanzgeräte). Diese Geräte bauen auf demselben Prinzip auf, nur, dass sie von einem völlig gesunden Organismus ausgehen und dann messen, wo Dissonanzen im Körper vorhanden sind. Sie können eine

solche Praxis suchen und sich ein Diagnoseprofil erstellen lassen und sich dann selbst mit Ihrem Gerät behandeln.

- Die meisten Frequenzen gegen Krankheiten sind im Buch aufgelistet. Manchmal verändern sich medizinische Definitionen über die Zeit oder werden mit neuen definitionen zusammengestellt. Falls Sie die gewünschte Erkrankung nicht finden, haben Sie vielleicht unter einem falschen Namern gesucht; z.B.: Hautkrebs finden Sie unter **Krebs, Haut** (cancer, Skin) oder Bandwürmer finden Sie unter **Parasiten, Bandwürmer** (Parasites, Tapeworms). Falls Sie Zweifel haben schreiben Sie bitte ein email an unsere Kontaktadressen.
- Wenn Sie Ihr ETG regelmässig verwenden, hat das noch einen weiteren Effekt: Sie lernen Ihren Körper besser kennen und einschätzen und Sie werden sehr viel sensibler und 'treffsicherer' mit Ihren Eigenbehandlungen. Sie werden in der Lage sein Ihre Erkrankung besser einzuschätzen und deshalb Ihre Behandlungen genauer zu wählen. Sie werden in der Lage sein die Frequenzen zu identifizieren, die Sie zu besserer Gesundheit führen und zu neuen Frequenzen überzugehen wenn notwendig.

7. Worauf müssen Sie bei der Behandlung achten?

Sie können bei der Behandlung im Grunde nichts falsch machen; wenn Sie dem Körper z.B. eine Frequenz zuführen um einen Parasiten zu bekämpfen und Sie haben diesen Parasiten garnicht, dann verklingt diese elektrische Frequenz quasi ohne Effekt, aber auch ohne Schaden. Es gibt Forschungen darüber, dass Erreger in bestimmten Frequenzfeldern leben. Wenn sich bei Ihren Behandlungen diese Frequenzfelder mit den Frequenzfeldern anderer Erreger oder Parasiten mit ähnlichen Frequenzen überschneiden, dann wird diese Spezie mit grosser Wahrscheinlichkeit ebenfalls dezimiert oder abgetötet. Zu Ihrer eigenen Sicherheit empfehlen wir Frequenzsets zu verändern, wenn Sie nach längeren Behandlungen (5 Tage) gegen ein bestimmtes Krankheitssymptom keinerlei Veränderungen spüren.

7.1. Was bedeutet Herxheimer Reaktion?

Bei der Elektrotherapiebehandlung werden v.a. am Anfang sehr viele Parasiten und Krankheitserreger abgetötet. Dies kann Ihr Eliminierungssystem überfordern und zu Übelkeit, Erschöpfung und

Schwindel führen. Man nennt das den ‚Herxheimer Effekt‘, oder auch das ‚Parasite-Die-Off-Syndrom‘ (Parasitenabsterbesyndrom), eine Reaktion des Immunsystems auf freigesetzte Gifte in Blut und Gewebe. Durch die kurzzeitige Überforderung der Leber und der anderen Eliminationsorgane verschlechtern sich Ihre Symptome sich erst einmal. Das kann für ein paar Stunden, aber auch bis zu 2/3 Tage anhalten, bevor Sie anfangen sich deutlich besser zu fühlen. Es ist wichtig zu wissen, dass die sich verschlechternden Symptome kein Scheitern der Behandlung bedeuten; in der Tat ist es genau das Gegenteil, nämlich der Beweis für eine sehr starke und effektive Entgiftung.

7.2. Was tun bei Herxheimer Reaktion?

Das Wichtigste ist diese körperliche Reaktion, als einen Teil der Behandlung zu akzeptieren. Falls es sehr schlimm sein sollte, dann reduzieren Sie die Behandlungszeiten, trinken Sie viel Wasser (mindestens 4 L pro Tag) und ruhen Sie sich viel aus (keinen sportliche Betätigung), essen Sie leicht um das Verdauungssystem nicht zusätzlich zu belasten, fügen Ihrem Trinkwasser frisch gepressten Zitronensaft bei und stellen Sie sicher, dass Ihre Verdauung gut funktioniert (die Einnahme von Klaubersalz oder natürlichen Abführmitteln ist eventuell empfehlenswert).

7.3. Warnungen

- Im Falle von Schwangerschaft wird dringend davon abgeraten Elektrotherapiegeräte zu verwenden.
- Es wird empfohlen das Gerät nicht zu verwenden, wenn Sie mit einem Herzschrittmacher leben, allerdings gibt es bis heute keinerlei nachgewiesenen Gegenanzeigen.
- Achtung: wenn Sie mit Frequenzen in den Bandbreiten des Lactobazillus Acidophilus behandeln (346.05, 347.00, 348.00, 349.00, 350.00, 351.65, 352.00, 353.00, 354.00, 355.00) und dieses Bakterium damit dezimieren, kann dies bei manchen Menschen Candida auslösen. Falls Ihr Programm sich mit die Bandbreite der natürlichen Magen- und Darmflora überschneidet, dann ergänzen Sie Ihre Nahrung bitte täglich mit Probiotics (Lactobazillus). Lactobazillus ist auch in natürlichem Joghurt, Kefir und Kombucha enthalten.

7.4. Wichtiger Hinweis:

Bei der Anwendung unserer Elektrotherapiegeräte kann es in seltenen Fällen zu einem leichten Prickeln auf der Haut kommen. Dies geschieht in der Regel nur bei der Verwendung der Bänder an sensiblen Hautstellen wie Bauch, Handgelenken oder anderen weichen Hautstellen. Dies können Sie vermeiden, wenn Sie die Bänder in Ihren Handflächen oder an den Sohlen Ihrer Füße anlegen.

Wenn Sie die Bänder trotz des prickelnden Gefühls längerfristig an sensiblen Hautstellen verwenden (wie z.B. Handgelenke), kann es zu einem lokalen Ausschlag kommen. Wenn Sie unbedingt an diesen Stellen behandeln wollen, dann verschieben Sie beim Auftreten des prickelnden Gefühls die Bänder bitte regelmässig alle paar Minuten.

7.5. Wie sollten die Bänder getragen werden?

Der beste Ort zur Durchführung mehrstündiger Behandlungen (wie z.B. über Nacht) sind die Fusssohlen und zwar in der Weise, dass der Edelstahlknopf die Unterseiten Ihrer Füße berührt. Die Fusssohlen haben besonders dicke Haut und sind in der Lage lange Perioden von Elektrotherapie zu tolerieren.

Wir empfehlen die Bänder vorzugsweise an den Sohlen Ihrer Füße zu benutzen befestigen in der Weise, dass die blaue leitfähige Beschichtung der Bänder die Unterseiten der Füße berührt. Der Edelstahlknopf muss die Sohlen unbedingt immer berühren..

Verwenden Sie die Handbänder nur an den Handflächen

Silver Button Gesichter Handflächen

Verwenden Sie die Fussbänder an den Sohlen Ihrer Füße (siehe Bild)

7.6. Sicherheitshinweise für die Bedienung des ETG

Ihr Elektrotherapiegerät hat die Qualitätsprüfung für Langzeitbehandlungen erfolgreich durchlaufen.

7.7. DAC, Wellenform, Volt, harmonische Frequenzen

Square Wave Harmonics

Laborgetestete harmonische
periodische Wellenform
für 100% der Frequenzen

7.7.1 Digitale Analogumwandler (DAC)

Digitale Frequenzen aus der direkten digitalen Synthese und digitaler Signalverarbeitung werden analog umgewandelt, bevor sie aus dem ETG übertragen werden. Diese Digital-Analog-Umwandler werden DAC genannt. Das ETG-Signal geht durch den DAC durchläuft dann einen Durchgangsfiler um die Analog-Umwandlung zu beenden. Die Ausgangsfrequenz ist eine sehr genaue analoge Frequenz mit allen Obertönen und Untertönen dieser analogen Frequenz.

Die analogen Frequenzen, die von diesem digitalen Chip produziert werden, können mit mehr Genauigkeit nach oben oder unten schwingen, als die meisten Frequenz-Generatoren. Das Wichtigste ist, dass die Frequenz zu einer analogen Frequenz umgewandelt wird, bevor sie auf den Körper übertragen wird. Digital erzeugte Frequenzen, die zu analogen umgewandelt werden, sind die Genauesten. Nur wenn diese analogen Frequenzen dann zu Rechteckwellen umgewandelt werden, kann man die harmonischen Rechteckwelle produzieren, wie sie in der Abbildung zu sehen sind (Abb. 2). Die Frequenzen werden unter Verwendung von Carrier-Wellenwiderständen auf einer einzigen Bandbreite erzeugt.

7.7.2 Wellenform

Der gewählte Wellentyp ist die Rechteckwelle; sie ist die, zur Beseitigung von Krankheitserregern und Krankheiten, zuverlässigste und als effektiv getestete Wellenform. Die Einschaltdauer ist bei 50% bei dem Standard-Modell, und 10% bis 90% bei dem professionellen Modell mit Option zum Pulsmodus (Abb. 1).

7.7.3 Spannung und Stromstärke

Wenn die Spannung am Ausgang mit einem Oszilloskop gemessen wird, dann wird die Oberseite der Rechteckwelle (7,5 V) mit der Unterseite des Rechteckwelle (7,5 V) addiert und damit die genaue Ausgangsspannung mit 15 V gemessen.

Eine Multimetermessung misst nur die Oberseite der Rechteckwelle und wird somit nur 7,5 V anzeigen. Die Messung erfolgt sofort und wird deshalb nicht den echen Messwert zeigen ($7,5 + 7,5 = 15V$).

Beachten Sie also bitte, dass eine Multimetermessung des ETG-Ausgangs nur 50% der Gesamtleistung Ihres Geräts anzeigt. Diese Abweichung hat damit zu tun, dass Multimeter nicht in der Lage sind Volt-Messungen von Wellen durchzuführen. Im Zweifelsfall messen Sie die

Ausgangsleistung Ihres ETGs bitte immer mit einem professionellen Oszilloskop. Der Ausgangsstrom von Ihrem Netzgerät ist 4500mA.

7.7.4 Harmonischen Frequenzen

Frequenzen erzeugen Harmonieen, die sich in ihren Ausgangssequenzen innerhalb der der Welle von hoch zu niedrig und wieder zu hoch entwickeln (Abb.2). Diese Harmonieen einer Frequenz bestehen aus Obertönen und Untertönen dieser Frequenz. Bei einem Gerät wie Ihrem Elektrotherapie-Frequenzgenerator gehen diese Harmonien nach unendlich. Mit diesen Harmonieen werden Sie nicht nur von der heilenden Wirkung der Frequenz selbst profitieren, sondern Sie werden es dem Erreger auch unmöglich machen, sich der gegebenen Frequenz zu entziehen.

8. Einführung in die ETD-Frequenzliste

Die überarbeitete Ausgabe der ETD Frequenzliste, stellt den Nutzern unserer Elektrotherapiegeräte ein übersichtliches und umfangreiches Handbuch zur Verfügung, mit dem Sie Ihr Gerät für verschiedene Krankheiten und Leiden verwenden können.

Dieses Buch wurde unseren Gerät angepasst und die Angaben entsprechen den programmierbaren Frequenzen in Kiloherz (Khz).

8.1. Die kompakte kommentierte Frequenzliste

(The Electro Therapy Device Frequency List (ETD) 2013

© ETD ASSOCIATION 2013)

Dieses Buch wurde von medizinischen Forschern zusammengestellt, die mit Elektro –Therapie-Geräte arbeiteten, wie z.B. die Royal Rife Maschine oder ähnlichen digitalen Elektrotherapiegeräten. Die speziellen Frequenzen sind Zusammenstellungen von erfolgreichen Behandlungen von Patienten mit schwerwiegenden Erkrankungen in den verschiedenen Khz Einstellungen. Die medizinischen Anwender sammelten ihre Notizen der Frequenzbereiche für eine bestimmte Erkrankung, bei der die Behandlung erfolgreich war. Diese wurden dann in dieser Broschüre gesammelt. Die Frequenzliste wird jährlich erweitert.

Frequenzen in diesem Buch spiegeln erfolgreiche Behandlungen durch die Benutzung von Elektrotherapiegeräten. Sie sind nicht immer in der Lage eine Erkrankung zu heilen, aber sie werden bei der Heilung vielen Erkrankungen und Krankheiten assistieren oder zumindest eine deutliche Verbesserung Ihrer Symptome ermöglichen. Viele parasitär verursachte Erkrankungen können durch die spezifischen Frequenz- Programme die in diesem Buch beschrieben sind, behandelt und geheilt werden.

Die ETD Frequenzen sind ursprünglich in Hertz. Das für Sie mitgelieferte Buch hat alle Frequenzen in KHz übertragen, damit Sie Ihre Frequenzsets direkt in Ihr Elektrotherapiegerät einprogrammieren können. 1 KHz entspricht 1000 Hertz (Hz); z.B. 30 000 Hz = 30.00 KHz. Die Bandbreite Ihres Elektrotherapiegerätes reicht von 000.01 KHz bis zu 999.99KHz (ca.1 Megahertz, Mhz). Die Zusammenstellung wurde in eine Form gebracht, dass Sie die Frequenzsets aus dieser Broschüre über die Navigationskonsole direkt in Ihr ETG eingeben können.

8.2. Rechtsbehelfserklärung

Der C.A.F.L. Verband übernimmt keine Garantien, dass die Royal Rife Frequenzen aus dieser Liste bestimmte Krankheit heilen werden. Die Auflistung ist eine Sammlung, zusammengestellt von medizinischem Fachpersonal, das mit Frequenzgeneratoren arbeitet. Die genannten Frequenzsets sind Zusammenstellungen aus Frequenzen, die für die spezifischen Erkrankungen erfolgreich eingesetzt wurden.

Ihr ETG ist lizenziert alle ETD Royal Rife Frequenzsets zu verwenden

2. Introducción:

Felicidades por la compra de su Dispositivo de Electroterapia (ETD). Esta guía le proporciona una introducción a la electroterapia y las recomendaciones necesarias para el uso del dispositivo. También se incluye la lista oficial de frecuencias CAFL revisada, una introducción sobre parásitos y la descripción de la desintoxicación del hígado que ampliamente recomendamos. Les deseamos todo el éxito con su tratamiento y una experiencia positiva con el uso de su nuevo dispositivo.

PRECAUCION: Esta máquina es un dispositivo de electroterapia con un potencial de salida de frecuencia muy alto. Se recomienda leer este manual cuidadosamente y usar el dispositivo exactamente como se indica.

3. Información Técnica:

La Información Técnica para la programación y uso de su ETD se proporciona por separado en el manual de “Inicio Rápido”, con la guía de “Preguntas más Frecuentes” y una página de Contactos Internacionales.

4. Conceptos Básicos:

¿Para qué es el tratamiento con el Dispositivo de la Electroterapia (ETD)?

- Use la electroterapia para combatir ciertos virus, bacterias, parásitos, etc. La electroterapia trabaja en forma similar a la Homeopatía: Lo similar combate lo similar. Todo a nuestro alrededor tiene una carga eléctrica por lo tanto todo tiene cierta frecuencia eléctrica, siempre y en cualquier lugar estamos expuestos a ella. Si se tiene un virus específico, éste vive en un campo energético dado. Para simplificar vamos a asumir que vive solo en una sola frecuencia eléctrica. Cuando das esa frecuencia generada por el ETD a tu cuerpo (con ondas muy particulares) el virus es sobre estimulado y muere.
- Use la electroterapia para restaurar vitalidad y salud: Los programas producen una resonancia armónica en el cuerpo. Los

síntomas producen una disonancia eléctrica en el organismo. Con los programas más generales como el de “dolor de espalda”, programas de desintoxicación de pulmones, hígado, etc. la disonancia en el cuerpo se va a transformar en una resonancia armónica. Estos programas son especialmente útiles para los tratamientos en los meridianos con la conexión de las 4 correas.

5. Modos de Tratamiento:

5.1. MANUAL

Modo <RUN>: En este modo se ejecuta una sola frecuencia y se puede controlar la duración del tratamiento manualmente. (Ejemplo: ejecuta una sola frecuencia por una hora o manualmente ejecuta la frecuencia por 7 minutos. Presiona RUN otra vez para obtener un descanso de 10 minutos) . Utilizas el modo RUN cuanto quieres trabajar específicamente con una sola frecuencia y cuando sabes la frecuencia exacta con la que hay que trabajar. Puedes usar una frecuencia por varias horas y otra por 5 minutos.

5.2. AUTOMATICO

Modo <SWEEP>:- En este modo se ejecuta todo un set de frecuencias con un tiempo predeterminado (10 frecuencias por 10 minutos cada una = 1 hora 40 minutos.) Las frecuencias que se usan son las que se encuentran en la lista de frecuencias que se incluye en este manual y que han resultado exitosas contra la enfermedad respectiva. Muchas enfermedades no se pueden atribuir a un solo patógeno y/o que siempre se manifiesten con los llamados síntomas secundarios. Consecuentemente, las frecuencias incluidas en los sets representan las mejores frecuencias de ancho de banda para el tratamiento de la enfermedad respectiva.

5.3. PROGRAMACION PREDETERMINADA DE FABRICA

Modo <SWEEP>: Sin alterar la programación predeterminada el usuario la puede ejecutar desde la frecuencia mas baja hasta 1 millón de Hz en un periodo de 1 hora y 40 minutos. Esto permite un tratamiento para una enfermedad desconocida o bien que cualquier persona, sin conocimientos técnicos, pueda usar el dispositivo solo con encenderlo y presionar el botón <Sweep>. Los modelos profesionales tendrán la lista de la programación predeterminada en el Manual de Inicio Rápido después de noviembre del 2013.

5.4. ¿QUE TAN SEGUIDO SE CAMBIAN LOS PROGRAMAS?

Se sugiere no cambiar los programas muy seguido, pero centrarse en la enfermedad que se desea tratar con un set de frecuencias. Hay que hacerlo regularmente (5 días de tratamiento con 2 de descanso) hasta que los síntomas desaparezcan. A veces es recomendable usar 2 sets de frecuencias diferentes para una enfermedad en particular, en este caso intercambiar los 2 sets cada semana. Si no sientes ningún cambio en los primeros 5 días del tratamiento probablemente estés trabajando con el set de frecuencias equivocado, se debe entonces tratar con un set diferente. El set de las 10 frecuencias programadas en la tarjeta de memoria del dispositivo permanece aún cuando se apaga o se desconecta el dispositivo. Si se quiere reprogramar el dispositivo siga las instrucciones para guardar otro set de frecuencias en la tarjeta de memoria.

6. Recomendaciones para los Tratamientos

6.1. Recomendaciones Generales:

Si eres nuevo en este tipo de terapia o si nunca has usado un ETD recomendamos empezar el tratamiento lentamente. En el modo <SWEEP> ejecute un ciclo diario como máximo, si es posible dividirlo en dos sesiones (primero 5 frecuencias y después de unas horas las 5 restantes).

Después de trabajar unos días con este tratamiento, relativamente conservador, puede aumentar los tratamientos a 2 ciclos <SWEEP> por día. Si se llega a usar el dispositivo regularmente puedes comenzar los tratamientos en la noche con las correas ajustadas a los pies. De esta manera se pueden completar 3 o 4 ciclos mientras duermes y experimentarás inmediatamente grandes mejoras. En general el sueño no se altera, muchos usuarios han reportado lo contrario, se sienten más despejados y alertas después de una noche de tratamiento de electroterapia.

Los tratamientos que pueden encontrarse en el libro de frecuencias enlistan miles de enfermedades con su set de 10 frecuencias cada una. A veces la decisión es fácil, por ejemplo: si tienes un resfriado simplemente programa el dispositivo con el set de frecuencias "common cold" (resfriado común) y ajusta tu máquina en el modo SWEEP. Enfermedades más complicadas requieren de un programa individualizado.

6.2. Tratamientos en General:

Se consideran tratamientos en general a la limpieza de parásitos, resfriado o gripe, cándida o enfermedades de la piel, bacterias, infecciones virales y desintoxicaciones, para nombrar algunos. Estos padecimientos se pueden tratar en un período de 21 a 30 días. Para un tratamiento general de parásitos se recomienda: Parásito General Integral: 0.16, 0.30, 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 356.72, 451.17

Programa el ETD con cada frecuencia y usarlo 10 minutos por frecuencia. Mucha gente usa el ETD en los pies mientras duerme por los primeros 21 días de la limpieza, de 1 a 6 horas por día/noche, mientras descansan o duermen. Coloque las correas en ambos pies con la parte plateada tocando las plantas de los pies. Programe todas las frecuencias enlistadas arriba y permita que se ejecuten con intervalos de 100 minutos. Si no se sabe que enfermedad tratar simplemente use el set de frecuencias programado en el dispositivo con el modo <SWEEP> siguiendo las instrucciones dadas en el párrafo anterior.

6.3. Tratamientos para Enfermedades Graves:

Enfermedades mas serias requieren periodos de tratamiento mas largos y a menudo permiten un curso de frecuencias que pueden estar cambiando en pocas semanas. Nuestros dispositivos han sido usados exitosamente por miles de personas para tratar enfermedades graves. Una y otra vez los resultados han mostrado que las sesiones de tratamiento prolongadas han producido los mejores resultados.

Las sesiones prolongadas son mas convenientes por la noche para no interrumpir las actividades durante el día. Una sesión durante la noche con las correas ajustadas en los pies permite una curación profunda que alcanza y penetra los órganos del cuerpo. Por ejemplo los intestinos no se podían alcanzar con los primeros dispositivos de frecuencia; ahora con el ETD uno puede eliminar parásitos y patógenos que habitan en los intestinos y otros órganos como hígado, vesícula, estómago, etc. Sin embargo requiere de tiempo y de usar las frecuencias que resuenen cercanamente con los parásitos y los patógenos involucrados. Recomendamos el modo <SWEEP> para este tipo de tratamientos ya que ejecuta las 10 frecuencias con intervalos de 10 minutos. Cada frecuencia resuena con el programa de sanación para poder tratar la enfermedad en particular.

Debido a que el ETD trabaja con frecuencias naturales tres meses pueden ser un periodo de tiempo necesario para la remisión de los síntomas. Así trabaja la medicina natural, de una forma más sutil y en períodos largos de tiempo. De nuevo, los mejores resultados se logran con las sesiones de tratamiento prolongadas durante la noche.

6.4. ¿Cómo seleccionar las Frecuencias?

Si se tienen síntomas que no son fácilmente identificables hay varios métodos que se pueden utilizar para seleccionar el programa de tratamiento:

- Para seleccionar la frecuencia o el set de frecuencias correcto puedes trabajar con la kinesiología (es una prueba con los músculos basada en el principio de que el cuerpo ya sabe lo que necesita. Puedes consultar a un practicante de kinesiología o bien aprender esta técnica) Hay quienes usan el péndulo, que además es fácil de aprender.
- Hay dispositivos de electroterapia que pueden dar perfiles precisos de diagnóstico. Son usados por homeópatas (Máquina Vega) o en Clínicas Naturistas (Dispositivos de Bioresonancia) Se basan en el mismo principio solo que comienzan con un cuerpo sano y luego miden y diagnostican las disonancias presentes en el cuerpo enfermo. Puedes obtener el diagnóstico en estas clínicas y comenzar el tratamiento con tu propio dispositivo.
- La mayoría de las frecuencias de las enfermedades se encuentran en el libro, sin embargo las definiciones médicas pueden cambiar con el tiempo o compiladas en una nueva definición. Si no puedes encontrar una frecuencia tal vez has buscado en la sección equivocada. Por ejemplo: Cáncer de Piel se encuentra como **“Cáncer, Piel” (Cancer ,Skin)** o tenias como **“Parásitos, Tenias” (Parasites, Tapeworms)** . Si se tienen dudas contactar a su proveedor para obtener el set de frecuencias adecuado.
- Si se usa el ETD regularmente se podrá observar un efecto secundario importante: conocer al cuerpo mucho mejor, mas sensibilidad al proceso físico del tratamiento. A poder con mas facilidad evaluar la enfermedades y por lo mismo hacer una mejor selección del tratamiento. A poder indentificar las frecuencias que te harán sentir mejor y cambiar el set de frecuencias cuando sea necesario.

7. Nota de Precaución para los Tratamientos

No se puede “hacer algo equivocado” con estos tratamientos. Si, por ejemplo, usas el dispositivo para eliminar un parásito en particular y tu no lo tienes, entonces la frecuencia eléctrica desaparecerá sin afectar al cuerpo. Se han hecho investigaciones que muestran que los patógenos viven en rangos específicos de frecuencia. Si tu cruzas los rangos de frecuencia con otros patógenos o parásitos de una resonancia similar es muy probable que puedas eliminar esa especie. Recomendamos cambiar los sets de frecuencia sino sientes cambios en los síntomas después de un tratamiento prolongado. (5 días) El libro CAFL proporciona otras opciones de frecuencia para ayudarte con otros tratamientos.

7.1. ¿Qué es la reacción “ Herxheimer “ ?

Cuando se empiezan los tratamientos de electroterapia muchos parásitos y patógenos mueren. Esto puede abrumar a tu sistema inmunológico y causar nausea, cansancio o mareo. A esto se le llama el “efecto Herxheimer” o “ síndrome de la muerte de parásitos” que es la respuesta del sistema inmunológico a las toxinas en la sangre y los tejidos. Esta corta sobrecarga del hígado y otros órganos de eliminación, en una primera instancia, empeoran los síntomas. Pueden ser varias horas o también 2 o 3 días antes de que empieces a sentir una mejoría. Es importante saber que el empeoramiento de los síntomas no quiere decir que el tratamiento ha fracasado, de hecho, es exactamente lo contrario, es la evidencia de una muy fuerte y efectiva desintoxicación.

7.2. ¿Qué hacer cuando una reacción Herxheimer ocurre?

Lo más importante es aceptar la reacción física como una confirmación del resultado del tratamiento. Si es muy severa, reducir el tiempo de los tratamientos, tomar mucha agua (por lo menos 4 litros por día) y descansar (no hacer ejercicio) comer ligeramente para no sobrecargar el sistema digestivo y agregue jugo de limón fresco al agua que beba y asegurarse que el sistema digestivo está trabajando adecuadamente (se recomienda el uso de Sal Inglesas o de algún laxante natural).

7.3. Advertencia ETD

- Se sugiere que mujeres embarazadas no utilicen el dispositivo de la electroterapia.
- Se recomienda no usar ETD si tiene un marcapasos, sin embargo a la fecha no ha habido reportes de contraindicaciones.

7.4. Nota Importante:

En muy pocas ocasiones se produce un hormigueo en la piel por el uso del ETD. Esto sólo pasa cuando se usan las correas en zonas sensibles de la piel como abdomen, muñecas y otras zonas de piel suave. Para evitarlo favor de usar las correas solo en las palmas de las manos o en las plantas de los pies.

Usar las correas por largo tiempo en zonas sensibles a pesar de sentir este hormigueo puede causar una irritación. Si en realidad necesitas tratar éstas áreas favor de mover las correas regularmente después de unos minutos. Los mejores lugares para tratamientos de tiempo largo son las palmas de las manos y/o las plantas de los pies.

7.5 Como usar las correas.

El mejor lugar para tratamientos de varias horas (durante la noche) son las plantas de los pies y que los botones de acero inoxidable las toquen. Las piel gruesa de las plantas de los pies permite períodos prolongados de electroterapia.

Recomendamos usar las correas preferentemente en las plantas de los pies de tal manera que la banda conductiva azul toque la parte inferior de los pies. El botón de acero inoxidable siempre debe tocar las plantas.

o bien use las correas en las plantas de los pies.

7.6 Sugerencias para el uso confiable del dispositivo

La máquina ha pasado el Control de Calidad por años de exitosa operación continua.

7.7 DAC, Tipo de Onda, Voltaje, Frecuencias Armónicas

Figure 1

Figure 2

7.7.1 DAC

Frecuencias digitales de una síntesis digital directa y de un procesamiento de señales digitales se convierten en analógicas antes de ser transmitidas por el ETD. Estos Convertidores Analógicos Digitales se les conoce como DAC. La señal del ETD pasa a través del DAC y luego por un filtro para terminar la conversión analógica. La frecuencia producida es una frecuencia analógica precisa con todos los tonos y matices de esa frecuencia.

La frecuencia analógica producida por el chip digital puede ser llevada hacia arriba o hacia abajo con mas precisión que la mayoría de los generadores de frecuencia. Lo más importante para recordar es que la

frecuencia será convertida en analógica ante de su salida del ETD. Las frecuencias producidas digitalmente convertidas en analógicas son las más precisas. Estas frecuencias analógicas cuando se convierten en ondas cuadradas producen los armónicos de ondas cuadradas como los de la figura 2. Las frecuencias de radios son producidas usando la Impedancia de la Onda Portadora en un solo ancho de banda.

7.7.2 Tipo de Onda

El tipo de onda es una Onda Cuadrada, la forma de onda mas fiable probada para eliminar patógenos y enfermedades. El ciclo de trabajo esta fijo a 50% en el modelo estandar, y 10% - 90% en el modelo profesional en la opción de modo "Pulse". Figura 1.

7.7.3 Voltaje y Amperaje

La salida de voltaje medida por un Osciloscopio medirá con precisión la cresta de la Onda Cuadrada (7.5v) agregada a la parte inferior de la Onda Cuadrada (7.5v) para producir la lectura correcta de salida de 15 v.

Un multímetro medirá correctamente solo la cresta de la Onda Cuadrada (7.5v). La lectura es instantánea y no considera la medida total (7.5 v + 7.5 v = 15 v). Así que si estas midiendo la salida del ETD con un multímetro considera que sólo obtendrás el 50% del total de la salida del dispositivo.. La anomalía responde a la inhabilidad de la mayoría de los multímetros de poder medir adecuadamente los voltajes de una forma de onda. Si tienes dudas siempre prueba el ETD con un osciloscopio profesional. El amperaje de salida de una fuente DC es 4500 mA.

7.7.4 Frecuencias Armónicas

Las frecuencias producen armónicos que progresan de lo alto a lo bajo y de nuevo a lo alto dentro de la secuencia de salida. Figura 2. Los armónicos de la frecuencia consisten en sobre-tonos y bajo-tonos de esa frecuencia, En un dispositivo como el ETD generador de frecuencia, los armónicos se dan indefinidamente. Con los armónicos, no solo obtendrás los efectos de sanación de la frecuencia persé, sino que también se hace difícil para el patógeno eludir la frecuencia dada.

8. Introducción a la Lista de Frecuencias CAFL

La Edición Revisada de la Lista Consolidada y Anotada de Frecuencias CAFL (The Consolidated Annotated Frequency List Revised Edition (CAFL) 2013) provee a los usuarios de un claro y comprensivo manual para usar el Dispositivo de Electroterapia en contra de varias enfermedades y padecimientos.

Este libro es una adaptación de la Lista de Frecuencias CAFL para ser usado con el dispositivo. Todas las frecuencias programables están en Kilohertz (Khz.).

8.1. La Lista Consolidada y Anotada de Frecuencias (© CAFL Asociación (© CAFL 2013)

Este libro ha sido compilado por investigadores médicos que usan máquinas, como la Máquina Royal Rife o dispositivos de electroterapia similares. Las frecuencias particulares reflejan tratamientos médicos exitosos, en pacientes, con varias configuraciones de frecuencia RIFE. Los practicantes de la medicina anotaron el rango de frecuencia exitoso para una enfermedad en particular. Estas fueron transcritas en este libro.

Las frecuencias en este libro reflejan tratamientos exitosos que usaron dispositivos digitales de electroterapia. Tal vez no siempre sean la cura para la enfermedad, pero las frecuencias ayudarán en el alivio de muchas enfermedades y padecimientos. Muchas enfermedades causadas por parásitos pueden ser tratadas y curadas a través de los programas específicos de frecuencia señalados en el la lista CAFL.

Todas las frecuencias en el libro están en Kilohertz (Khz.) 1 Khz. corresponde a 1000 HZ (ejemplo 30000 Hz=30.Khz.). El rango del dispositivo digital va de 000.01 Khz. hasta 999.99 Khz. (cerca de 1 Mhz'). La colección se presenta en un formato que permite programar los sets de frecuencia directamente en el dispositivo Digital de Frecuencia.

Ingresa los sets de frecuencia del libro en la consola de navegación para obtener una mejora en los síntomas, la cura de diversas enfermedades o padecimientos físicos.

8.2. Descargo de Responsabilidad.

La Asociación C.A.F.L. no ofrece ninguna garantía de que la Frecuencia Royal Rife mencionada en este libro cure una enfermedad específica. La lista es una guía compilada por un grupo de médicos que trabajan con la Electroterapia y que han tenido resultados exitosos con estas frecuencias en particular.

Este Dispositivo Digital tiene licencia para usar todos los set de frecuencias de la CAFL Royal Rife © 2013

9.0 Liste complète des fréquences ETD 2013	page 58-129
10. Contactez-ETD, les ventes, les enquêtes	page 131

Introduction:

Félicitations pour l'achat de votre appareil d'électrothérapie (AdE). Ce manuel vous offre une introduction dans l'électrothérapie ainsi que des recommandations pour l'usage de votre AdE. De plus il contient la liste CAFL officielle des fréquences, révisées pour votre appareil, une introduction sur les parasites ainsi qu'une description du nettoyage du foie que nous vous recommandons. Nous vous souhaitons beaucoup de succès avec ces traitements thérapeutiques.

3. Quelques informations techniques:

Des informations techniques concernant la programmation et les opérations générales de votre appareil sont décrites dans le manuel « DEMARAGE RAPIDE » avec un guide « Questions fréquemment posées » ainsi qu'une page de contact international.

4. Informations de base :

A quoi sert un traitement de thérapie électronique avec l'AdE?

- Utilisez l'électrothérapie pour lutter contre des virus, des bactéries, des parasites etc. Selon le principe de similitude de l'homéopathie (les semblables soignent les semblables) vous traitez ce qui existe avec son équivalent (ici avec la même fréquence électrique): Tout ce qui nous entoure possède une charge électrique et donc une certaine fréquence électrique - nous y sommes constamment exposés. Par exemple vous avez un virus spécifique vivant dans une certaine fréquence : Si vous traitez votre corps avec un appareil électrique thérapeutique ayant été programmé avec la même fréquence, cela surexcite le virus et il meurt.
- Utilisez l'électrothérapie pour retrouver votre vitalité et santé: Les séries de fréquences produisent une résonance harmonique à travers votre corps. Chaque problème corporel apporte à l'organisme une dissonance électrique. Avec les séries de fréquences plus spécifiques comme contre les douleurs de dos, la désintoxication des poumons, du foie etc., le corps retrouvera son harmonie.

5. Modes de traitement: Automatique et manuel

5.1 MANUEL

Mode <RUN>: Dans le mode "RUN", vous travaillez avec une seule fréquence et vous pouvez contrôler le traitement manuellement (p.ex., 7 minutes, 30 kHz, 10minutes pause = off, 7 minutes traitement avec 30 kHz, 10-minute pause ... ou bien une seule fréquence pour une heure etc.). Vous faites des traitements dans le mode « RUN » si vous voulez travailler avec une seule fréquence et si vous connaissez la fréquence avec laquelle vous voulez travailler.

5.2 AUTOMATIQUE

Mode <SWEEP>: Dans le mode "SWEEP" vous faites un traitement avec une série complète (10 fréquences, 10 minutes chacune = 1 heure 40 minutes). Les fréquences ayant été choisies dans la série des fréquences (voir la liste CAFL) ont été utilisées avec succès contre les maladies respectives. Beaucoup de maladies ne peuvent pas seulement être attribuées à un seul élément pathogène et / ou apparaissent toujours avec des symptômes dit secondaires. Par conséquent, les fréquences incluses dans la série, représentent la meilleure gamme de fréquences pour le traitement des maladies respectives.

5.3 A quel moment change-t-on les programmes?

Ne changez pas trop souvent le programme, focalisez plutôt sur une maladie, que vous souhaitez traiter par une série de fréquences. Faites le traitement régulièrement (5 jours puis 2 jours sans), jusqu'à ce que vos symptômes aient disparus. Parfois, il est recommandé d'utiliser 2 séries différentes pour une maladie particulière, dans ce cas, changez les deux séries chaque deuxième semaine. Si vous ne sentez aucun changement pendant 5 jours, vous utilisez probablement une série non appropriée et devriez essayer une autre série.

Le programme est sauvegardé sur une carte de mémoire incorporée. Il est possible de réinitialiser l'appareil en suivant les instructions « comment réinitialiser la machine ».

6. Comment utiliser les fréquences pour le traitement

6.1 Recommandations générales:

Si vous découvrez cette forme de traitement et si vous n'avez pas utilisé un appareil d'électrothérapie pour une longue période, nous vous recommandons de commencer le traitement lentement. Dans le mode <SWEEP>, exécutez au maximum un cycle par jour, il est possible de séparer en deux sessions (premièrement 5 fréquences, puis quelques heures plus tard les 5 autres).

Après quelques jours de ce traitement vous pouvez augmenter le temps de traitement à 2 cycles « SWEEP » par jour. Si vous travaillez régulièrement avec l'appareil, il est possible de commencer un traitement de nuit avec les rubans autour des plantes de pieds. Pour cela, faites 3 à 4 cycles pendant que vous dormez et vous constaterez une guérison rapide. En général, votre sommeil n'est pas perturbé; beaucoup d'utilisateurs décrivent le contraire : Ils ressentent beaucoup plus de clarté et sont plus alertes après de telles nuits de traitement d'électrothérapie.

Les traitements peuvent être retrouvés dans le manuel de fréquences dans lequel sont listées des milliers de maladies et douleurs ainsi que les 10 fréquences correspondantes. Parfois le choix est facile, p.ex. Vous avez un rhume, simplement programmez votre appareil avec la série de « rhume / common cold » et commencez le traitement dans le mode « SWEEP ». Certaines maladies plus complexes peuvent demander un programme plus individualisé.

6.2 Des traitements de maladies les plus courantes:

Des traitements de maladies les plus courantes peuvent être traitées pendant une période de 21 à 30 jours. Par exemple le rhume ou la grippe, des maladies de candida ou de peau, des bactéries, des infections virales. Ainsi qu'un traitement de désintoxication ou de nettoyage de parasites.

Pour le traitement général des parasites nous recommandons:

Parasites courant: 0.16, 0.30, 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 356.72, 451.17

De nombreuses personnes utilisent l'AdE lors des 21 premiers jours du nettoyage pendant 1 à 6 heures lorsqu'ils se reposent ou dorment. Pour faire cela, placez les rubans autour des deux pieds, l'électrode touchant les plantes des pieds. Programmez toutes les fréquences mentionnées ci-dessus et autorisez l'appareil à fonctionner avec un cycle de 100 minutes de préférence pendant la nuit.

Si vous n'êtes pas certain du choix des bonnes fréquences pour le traitement, utilisez simplement la série de fréquences par défaut de l'appareil, et utilisez le bouton <SWEEP> pour commencer le traitement suivant les instructions mentionnées en haut.

6.3 Traitements des graves maladies :

Des maladies plus sérieuses demandent souvent de plus longs traitements et demandent souvent des changements de fréquences après quelques semaines. Nos appareils ont été utilisés avec du succès pour le traitement de milliers de personnes. Maintes fois, les résultats ont prouvés que les sessions étendues avaient de meilleurs résultats.

Des sessions étendues sont plus agréables lors de la nuit pour ne pas nuire aux activités de la journée ou aux horaires de travail. Une session pendant la nuit, les rubans attachés autour les plantes de pieds permettra une guérison plus profonde, qui atteindra et pénétrera les organes. Les intestins p.ex., sont des organes qui n'ont pas été atteints par les fréquences précédentes ; Il est possible avec l'AdE d'éliminer les parasites et pathogènes qui inhibent l'intestin ou d'autres organes comme le foie, la vésicule biliaire ou l'estomac. Toutefois, la guérison demande du temps et l'usage des fréquences en résonnance avec le pathogène ou le parasite concerné. Nous recommandons le mode <SWEEP> pour cet usage car il utilise les 10 fréquences par 10 minutes de cycle. Chaque fréquence correspondant au programme de guérison pour traiter la maladie spécifique.

Comme l'AdE utilise des fréquences naturelles, trois mois peuvent être une période de temps raisonnable pour une rémission de maladies plus sérieuses. La médecine naturelle travaille de cette manière, sur un niveau plus subtil et pendant une plus longue période de temps. Les meilleurs résultats sont atteints lors des sessions de nuit.

6.4 Comment choisir les fréquences :

Si vous avez des symptômes difficilement identifiables plusieurs possibilités pour choisir votre programme de traitement:

- Pour sélectionner votre fréquence ou votre série de fréquences vous pouvez utiliser avec la kinésiologie (tester les muscles, basé sur le principe que le corps sait déjà ce dont il a besoin ; vous pouvez travailler avec un praticien de kinésiologie ou apprendre cette méthode pour votre usage personnel). Quelques clients travaillent avec un pendule.
- Il y a aussi des appareils d'électrothérapie qui peuvent indiquer diagnostiques très précis. Ceux-ci sont souvent utilisés par les homéopathes (machine vega) ou dans les cabinets de guérison naturelle (appareils de bio-résonance). Ceux-ci sont basés sur le même principe, ils commencent sur un corps sain et ensuite ils mesurent et diagnostiquent les maladies étant présentes dans le corps malade. Ainsi vous pourriez chercher une telle clinique, avoir un diagnostique et ensuite traiter vous-même avec votre appareil.

Si vous utiliser l'AdE régulièrement, vous allez observer un autre effet important: vous allez connaître votre corps de mieux en mieux, vous allez mieux reconnaître votre maladie et donc mieux choisir le traitement le mieux approprié

7. Précautions:

Vous ne pouvez pas faire « quelque chose du mal » avec ces traitements. Si (par exemple) vous utilisez l'appareil pour éliminer un certain parasite et vous n'a pas ce parasite, la fréquence électrique va simplement être sans effet dans votre corps. Une recherche a démontré que les pathogènes vivent dans une certaine gamme de fréquence. Si vous traversez les gammes de fréquences avec d'autres pathogènes ou parasites d'une résonance similaire, vous pouvez probablement les éliminer. Nous vous recommandons de changer les séries de fréquences si vous ne ressentez pas de changement dans les symptômes après un traitement prolongé (5 jours). Le manuel CAFL offre d'autres options de fréquences pour la continuation de votre traitement.

7.1 Qu'est-ce que c'est, une réaction « Herxheimer »?

Quand vous commencez le traitement d'électrothérapie, beaucoup de parasites et pathogènes seront supprimés. Cela peut surcharger votre système immunitaire et vous donner des nausées, fatigue, vertiges. Cela est appelé l'effet « Herxheimer » ou « Parasite-Die-Off-Syndrome », une réponse du système immunitaire aux toxines dans le sang et les tissus. Cette surcharge momentanée du foie et d'autres organes d'élimination vont aggraver les symptômes. Cela peut durer de quelques heures à 2 à 3 jours avant que vous vous sentiez mieux. Il est très important de savoir que l'aggravement des symptômes ne signifie pas du tout que le traitement n'a pas fonctionné; c'est exactement le contraire, mentionnant l'évidence d'une détoxification très forte et effective.

7.2 Que faire quand une réaction « Herxheimer » apparaît?

La chose la plus important c'est d'accepter cette réaction physique comme un résultat confirmant le bon traitement. Si la réaction est très forte, réduisez le temps du traitement, buvez beaucoup d'eau (au moins 4 litres par jour) et reposez-vous (pas d'exercices!), mangez légèrement pour ne pas surcharger votre système de digestion, ajoutez du jus de citron frais dans votre eau et assurez vous que vous digérer bien ('usage du sel d'Epsom ou de laxatifs naturels est peut-être recommandé).

7.3 Précautions avec l'AdE

- En cas de grossesse il est fortement déconseillé d'utiliser des appareils d'électrothérapie.
- N'utilisez pas cet appareil, si vous avez un stimulateur cardiaque (pacemaker).

7.4 Note important:

Cet appareil est un appareil d'électrothérapie très performant. Lisez ce manuel avec soin et utilisez votre appareil d'électrothérapie en suivant exactement les instructions! L'utilisation de l'appareil pendant une longue période peut causer un léger effet de picotement sur une peau sensible. Fixez les rubans sur les paumes ou sous les plantes des pieds pour éviter d'éventuelles éruptions cutanées. Si vous devez l'utiliser malgré tout sur des endroits sensibles, comme par exemple l'estomac, le cou etc., changez la position de l'électrode de temps en temps.

Ainsi, le meilleur endroit pour l'exécution de longs traitements (comme par exemple pendant la nuit) est la plante des pieds de façon à ce que l'électrode et son revêtement bleu touchent le dessous de vos pieds. Les plantes des pieds ont la peau particulièrement épaisse et peuvent supporter de longues périodes d'électrothérapie.

Square Wave Harmonics

Utilisez les rubans seulement SUR LES PAUMES DES MAINS

ou LES PLANTES DES PIEDS

8. Introduction à la liste ETDFL

(The Electro Therapy Device Frequency List Edition 2013; © ETDFL 2013
= La liste des fréquences revues et annotées, édition révisée)

Ce manuel a été créé suite à des recherches médicales de plusieurs années sur des appareils d'électrothérapie, comme par exemple la machine Royal Rife, avec lesquels ont été traités des patients souffrant de maux différents. Les médecins spécialisés ont pris note des fréquences utilisées avec succès. La liste de fréquences ETDFL est initialement en Hertz.

Les fréquences de ce manuel représentent des traitements ayant fonctionnés avec succès. Ils ne sont pas toujours une garantie de guérison, mais ils pourront vous soulager. Beaucoup de maladies spécifiques de parasites peuvent être traitées grâce aux fréquences de l'AdE signalées dans la liste ETDFL.

8.1 La liste de fréquences ETDFL

L'édition révisée de la liste de fréquences ETDFL (The Electro Therapy Device Frequency List Edition 2013; © ETDFL 2013) offre aux utilisateurs de l'AdE un manuel clair et compréhensible.

Cette liste révisée mentionne des compositions de fréquences en kilohertz (Hz x 1000) correspondant aux machines numériques.

Toutes les fréquences dans ce manuel sont indiquées en kilohertz (Hz). 1 kilohertz correspond à 1000 Hz (par exemple, 30 000 Hz = 30.00 kilohertz). La largeur de gamme de fréquences de l'AdE s'étend de 000.01 kilohertz à 999.99 kilohertz (environ 1 Mhz (Mégahertz))

Cette liste vous permet de programmer les séries de fréquences dans votre appareil et de commencer aussitôt le traitement.

8.2 Mentions

L'association ETDFL. ne garantie pas que les fréquences de Royal Rife listées dans ce manuel guérissent. La liste est un guide compilé par des médecins spécialisés en électrothérapie ayant eu des résultats performants avec ces fréquences particulières.

Cet AdE est autorisé à utiliser toutes les assortiments de fréquences CAFL Royal Rife. © 2013

 Parasites flukes intestinal: 0.07, 0.32, 0.97, 2.38, 15.33, 46.37, 73.20, 87.52, 153.00, 415.70
 Parasites flukes liver: 0.18, 0.40, 0.80, 5.50, 27.50, 45.37, 72.50, 92.50, 132.00, 478.50
 Parasites flukes lymph: 0.18, 0.37, 0.80, 5.25, 13.98, 45.43, 72.50, 92.50, 351.00, 519.34
 Parasites flukes pancreatic: 0.17, 0.32, 0.85, 2.75, 17.50, 47.30, 75.50, 97.50, 151.07, 451.04
 Parasites flukes sheep liver: 0.15, 0.38, 0.93, 2.52, 31.20, 43.43, 68.50, 98.50, 149.28, 496.01
 Parasites follicular mange: 0.52, 0.68, 0.97, 2.50, 27.50, 35.91, 95.43, 375.37, 533.63, 653.69
 Parasites Gastrothylax elongatus 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 451.90, 457.10, 455.00,
 Parasites giardia lamblia (trophozoites) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 421.40, 426.30, 424.00,
 Parasites giardia: 0.05, 0.12, 0.90, 5.50, 27.50, 15.41, 45.00, 421.40, 426.30, 424.00,
 Parasites giardia lamblia type 2: 0.04, 0.32, 0.65, 0.90, 5.87, 7.50, 37.50, 421.40, 426.30, 424.00,
 Parasites Gyrodactylus 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 378.75, 381.80, 380.00,
 Parasites general: 0.41, 0.60, 0.85, 5.17, 22.50, 57.50, 322.06, 475.43, 575.44, 627.00
 Parasites general comprehensive: 0.16, 0.30, 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 356.72, 451.17
 Parasites gyrodactylus: 0.16, 0.30, 0.57, 0.85, 12.33, 2.75, 20.00, 150.00, 326.07, 479.50
 Parasites Haemonchus contortus 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 386.80, 395.50, 393.00,
 Parasites Hasstle sig. tricolor (adult) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 448.05, 455.10, 453.00,
 Parasites Hypodereum conoideum 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 424.45, 429.55, 427.00
 Parasites Haemonchus contortus 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 386.80, 395.50, 393.00
 Parasites heartworms: 0.13, 0.22, 0.93, 5.50, 17.50, 32.50, 52.50, 70.00, 92.50, 122.53
 Parasites helminthsporium (worm eggs): 0.04, 0.32, 0.65, 0.90, 5.75, 7.50, 37.50, 150.00, 375.41, 496.01
 Parasites hookworm: 0.16, 0.30, 0.57, 0.95, 2.50, 5.50, 20.00, 150.00, 319.34, 478.50
 Parasites Iodamoeba butschlii 0.68, 0.90, 2.50, 5.50, 398.15, 404.75, 437.85, 448.50, 445.00, 402.00
 Parasites Leishmania braziliensis 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 400.05, 405.10, 403.00,
 Parasites Leishmania donovani 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 398.00, 402.65, 400.00,
 Parasites Leishmania mexicana 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 400.20, 403.80, 402.00,
 Parasites Leishmania tropica 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 402.10, 407.40, 405.00,
 Parasites Leucocytozoon 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 397.45, 402.55, 400.00,
 Parasites Loa loa 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 388.00, 360.55, 361.00,
 Parasites Macracanthorhynchus 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 438.85, 442.80, 440.00,
 Parasites Metagonimus yokogawai 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 437.35, 442.10, 440.00,
 Parasites Myxosoma 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 409.60, 416.95, 414.00,
 Parasites Naegleria fowleri 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 356.90, 364.35, 362.00,
 Parasites Onchocerca volvulus (tumor) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 436.30, 442.10, 440.00
 Parasites Paragonimus Westermanii adult 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 437.80, 454.20, 452.00, 447.00
 Parasites Passalurus ambiguus 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 428.80, 444.15, 441.00, 437.00,
 Parasites pinworm: 0.07, 0.52, 0.75, 0.97, 2.50, 12.33, 22.50, 65.43, 322.06, 475.43
 Parasites Plasmodium cynomolgi 0.68, 0.90, 2.50, 9.20, 25.30, 13.93, 93.50, 417.30, 424.50, 422.00,
 Parasites Plasmodium falciparum smear 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 372.30, 373.80, 373.00,

Parasites Plasmodium vivax smear 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 438.15, 445.10, 442.00,

Parasites Pneumocystis carinii (lung) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 405.75, 409.15, 407.00,

Parasites Prosthogonimus macrorchis(eggs) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 396.85, 404.75, 401.00,

Parasites roundworms: 0.06, 0.52, 0.62, 0.93, 2.50, 15.44, 42.50, 100.00, 376.29, 450.00,

Parasites Sarcocystis 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 450.55, 454.95, 452.00,

Parasites scabies: 0.07, 0.12, 0.80, 5.50, 15.00, 27.50, 510.20, 667.50, 890.52, 907.50,

Parasites Schistosoma haematobium 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 388.00 387.00, 473.00,

Parasites Schistosoma mansoni 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 388.00 387.00, 353.00,

Parasites schistosoma haematobium (blood flukes): 0.18, 0.24, 0.60, 0.87, 2.25, 27.50, 55.44, 181.21, 325.83, 625.43,

Parasites schistosoma haematobium: 0.17, 0.55, 0.95, 5.25, 25.00, 37.50, 162.50, 397.50, 536.42, 702.53

Parasites schistosoma mansoni : 0.37, 0.95, 2.75, 3.00, 72.50, 96.50, 375.43, 175.44, 375.91, 598.22

Parasites Stephanurus dentalus (ova) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 457.35, 463.10, 461.00,

Parasites Stigeoclonium 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 404.25, 415.25, 412.00, 407.00,

Parasites Streptococcus pneumoniae: 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 366.85, 370.20, 368.00,

Parasites Streptococcus pyogenes (tooth) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 360.50, 375.30, 373.00,

Parasites Streptococcus sp. group G (tooth) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 368.15, 368.85, 368.00,

Parasites Strongyloides (filariform larva) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 398.40, 402.00, 400.00,

Parasites Sub terminal spores bac. smear 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 388.00 385.15, 385.95

Parasites taenia: (use Parasites, tapeworms)

Parasites tapeworms: 0.10, 0.25, 0.68, 5.75, 7.75, 96.50, 226.07, 475.44, 527.00

Parasites tapeworms echinococcinum: (dog and cats) 0.10, 0.25, 0.68, 5.87, 2.50, 7.50, 96.50, 215.70, 475.00, 527.00

Parasites threadworms: 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 398.40, 402.00, 400.00,

Parasites Tobacco mosaic virus 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 427.15, 420.55, 428.00

Parasites Toxoplasma (human strain) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 388.00, 395.00, 422.00

Parasites Treponema pallidum causes syphilis 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 346.85, 347.40, 347.00

Parasites Trichinella spiralis (muscle) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 403.85, 405.57, 404.50,

Parasites Trichomonas vaginalis 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 378.00, 383.60, 381.00,

Parasites Trichuris sp. (male) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 388.30, 408.90, 406.00,

Parasites Troglodytella abrasari 0.68, 0.90, 2.50, 5.50, 93.50, 416.90, 422.20, 385.20, 383.00, 419.00

Parasites Trypanosoma brucei 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 423.20, 431.40, 429.00,

Parasites Trypanosoma cruzi (brain tissue) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 460.20, 465.65, 463.00,

Parasites trypanosoma equiperdum: 0.13, 0.57, 0.85, 5.75, 7.50, 20.00, 52.50, 90.00, 358.57, 475.44

Parasites trypanosoma gambiense: 0.13, 0.57, 0.85, 13.61, 7.50, 15.91, 52.50, 90.00, 357.77, 534.25,

Parasites trypanosoma lewisi: (blood smear) 0.06, 0.57, 0.85, 5.25, 7.00, 20.00, 52.50, 90.00, 356.72, 425.43

Parasites trypanosoma lewisi: 0.15, 0.12, 0.62, 0.83, 10.53, 2.75, 15.91, 96.50, 225.41, 524.37

Parasites trypanosoma rhodesiense: 0.07, 0.22, 0.68, 0.97, 2.25, 5.75, 25.43, 125.00, 226.32, 456.50

Parasites turbatrix: 0.02, 0.23, 0.73, 2.50, 5.25, 7.00, 32.50, 95.91, 175.41, 475.43,
 Parasites urocleidus: 0.08, 0.40, 0.73, 0.90, 5.17, 2.50, 12.71, 97.50, 250.00, 422.53,
 Parasites trypanosoma rhodesiense: 0.13, 0.57, 0.85, 5.17, 37.10, 102.79, 352.50, 591.02, 652.93, 952.59
 Parasites turbatrix: 0.24, 0.70, 0.97, 2.50, 27.50, 45.83, 67.50, 97.50, 325.36, 451.17
 Parasites urocleidus: 0.13, 0.23, 0.75, 0.85, 5.25, 7.25, 45.00, 87.50, 95.36, 150.00
 Parasites Veillonella dispar 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 401.75, 405.20, 403.00,
 Parasites Trypanosoma equiperdum 0.68, 0.90, 2.50, 5.50, 13.93, 434.60, 451.25, 448.00, 442.00, 438.00,
 Parasites Trypanosoma gambiense 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 393.75, 398.70, 396.00,
 Parasites Trypanosoma lewisi (blood smear) 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 424.50, 426.00, 425.00,
 Parasites Trypanosoma rhodesiense 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 423.50, 428.55, 426.00,
 Parasites Urocleidus 0.68, 0.90, 2.50, 5.50, 13.93, 93.50, 386.40, 442.35, 450.00, 447.00,
 Parasympathetic Nervous System Diseases: 0.05, 0.37, 0.83, 2.75, 3.00, 70.00, 95.09, 175.16, 275.00, 357.30
 Parathyroid Diseases: 0.19, 0.50, 0.70, 0.97, 13.39, 102.75, 342.50, 467.50, 696.50, 825.43,
 Parietal Region Trauma: 0.13, 0.23, 1.60, 8.53, 17.50, 72.53, 155.29, 396.50, 437.48, 828.57,
 Parinaud Syndrome: 0.17, 0.32, 0.95, 5.50, 32.50, 47.50, 162.12, 232.03, 397.50, 679.93
 Parkinson Disease: 0.08, 0.35, 0.65, 0.83, 9.50, 115.71, 354.95, 355.35, 368.00, 398.40
 Parkinsonian Disorders: 0.57, 0.78, 0.90, 5.25, 7.00, 115.71, 255.83, 485.43, 692.50, 825.00
 Parkinsonian Syndrome: 0.57, 0.78, 0.90, 5.25, 7.00, 115.71, 255.83, 485.43, 692.50, 825.00
 Parkinsonism: 0.57, 0.78, 0.90, 5.25, 7.00, 115.71, 255.83, 485.43, 692.50, 825.00
 Parkinsonism, Experimental: 0.57, 0.78, 0.90, 5.25, 7.00, 115.71, 255.83, 485.43, 692.50, 825.00
 Parkinsonism, Juvenile: 0.57, 0.78, 0.90, 5.25, 7.00, 115.71, 255.83, 485.43, 692.50, 825.00
 Parodontosis: 0.06, 0.32, 0.73, 0.87, 12.33, 15.00, 85.54, 150.00, 225.36, 575.83
 Paronychia: 0.02, 0.32, 0.62, 0.97, 112.85, 213.93, 325.28, 516.07, 616.52, 773.50
